

I respectfully urge the FCC to reject the NAB's petition 04-160. I pay hard earned money to have xm satellite radio service available to me. and I thoughly enjoy the programing that I chose to listen to. It deeply saddens me to see what the broadcast radio people have become over the recent years. I for one listen to very little broadcast radio anymore the programing is terrible and who ever is producing it is out of touch with the majority of the population. I listen to satellite radio for the same reason that I subscribe to cable TV and Satellite TV. I want to listen to something that I want to listen to and not to something that has no revelance or content and what the broadcasters really think that I want to hear.

Thank you for hopefully taking the time to read this.
